The Frog Logic Colouring Book

soft landings for busy brains

8 frogs · 2 ways each · no rules

Before you start

- There are no rules in this book.
- Any colours you like. Purple frogs are very welcome.
- Start anywhere. Skip pages. Colour half a frog.
- Outside the lines still counts.
- Stop the moment it stops feeling nice.
- Every frog comes twice: once with big, simple shapes, and once sitting in the pond with more to colour. Pick whichever suits your brain today.
- Print single-sided so pens don't bleed through, and print a page again whenever you want a fresh one.

made in my lounge, with love — Sam

For your own personal use: print it as many times as you like, for yourself and your household. Please don't resell or share the file itself. © Frog Logic

Your frog, your feeling

Give this frog whatever it needs today: a hat, a snack, a blanket, a sign.

Today my frog is feeling...

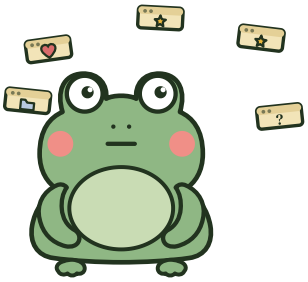

_____

The frogs' own colours

Only if you want them. Your colours are just as right.
